

Clevis Socket Fitting for Braided Jacket Kevlar Rope

Electroline synthetic rope fittings for Kevlar rope with braided jackets excel in meeting the need for a quick, reliable end termination. These fittings use a swagless design with an internal taper pin that allows them to be installed in the field without special tools or complicated processes. They are selected for both the rope size and rated rope strength.

- Available for ropes 3/16 to 3/4" in size.
- Machined from aluminum to provide lightweight strength.

Specifications

Termination Type	Swageless
Connector Type	Clevis
Jacket Type	Braided
Rope Material	Kevlar Rope
Material	Aluminum
